## **Continuation Sheet (PTO-303)**

**Application No. 10/667,648** 

## Continuation of 3. NOTE:

The proposed amendment to claim 1 does not provide full antecedent basis for the limitations set forth in claims 9 and 12. The Markush group of proposed claim 1 does not include phenoxides. Furthermore, it appears that the Greene reference would still apply because: (1) the epoxy functional organopolysiloxane would have been considered an epoxy resin; and (2) the catalyst (including KOH) is used "to increase the rate of the crosslinking (curing) reaction".
